DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a tall, brick, three story building located on a corner. It is four bays wide and approximately nine bays long. All brickwork is in common bond and the front is faced with a rough finish face brick of a dark red shade. The first floor has a deep center recessed entrance area to the shops on either side and to the apartments above. These shops have large plate windows with transoms of Victorian style, very small leaded glass panes, and topped by a simple boxed cornice with a paneled frieze over all which extends across the first right side bay along the alley. A Victorian style metal marquee in angular shapes projects over the Patrick Street sidewalk. Upper story front windows are double types with 6/1 sash with moulded mullions and flat brick soldier course arches. Side windows are of 6/1 sash with similar arches and brick soldier course sills. There is a newer full width, two story shop extension of approximately six bays to the rear. The front roofline has a battlemented parapet and the side walls have stepped parapets. An ornamental cornice, possibly of metal, decorates the top of the front facade at about the edge of the true roofline and is decorated by moulding and panels. The building sets on a low foundation.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This rather plain shop and apartment building has refined but attractive Victorian decor and blends well with other downtown buildings of that period.
